Vestano is engaged in supplying high-quality of Elevators and Escalators.

We supply our products with quality certificates and type examination test reports of safety components.

Our services are including maintenance, repair and modernization of all kinds of elevators with a team of well-qualified and experienced engineers and technicians.

Include emergency repairs, replacing worn, damaged, or older parts along with installing more modern, reliable, and code-compliant equipment.

We can also complete specialty service upgrades (designed to improve the quality, ride, and safety of your elevator) efficiently and at competitive pricing. We ensure a smooth ride and optimal safety.

With changes in code compliance and industry regulations being published, it's important to be sure that you have the right people with the correct tooling working with your equipment to get the job done right, at the very first time.

We understand how frustrating it is when things don't go to plan, so we strive to ensure the lowest possible downtime for any and all service work.

Thanks to our preventative forecasting we can help to ensure your equipment gets the maximum life expectancy possible while still remaining reliable while performance stays constant, all performed by professional elevator technicians who are fully uniformed and expertly trained.

## MAINTENANCE SERVICES

Vestano is providing maintenance Services for Elevators and Escalators Which can be summarized in the following points:

1. Periodic Visits will perform a check of all safety and vital elements of the elevators, as well as all necessary adjustments of those parts that require.
2. During every visit, Vestano will Perform the greasing and cleaning of all elements that require, due to their features using lubricants.
3. Vestano will attend all call-out notices to correct the failures of the elevator and put it back to normal and safe operation.
4. Vestano will repair and replace all the faulty parts of the elevator and will notify the client of the same.
